## FIELD VISIT REPORT

The field visit to Biotechnology research centre, Rahuri was organized on 29<sup>th</sup> December 2023 for Third Year students.

The primary aim was to provide students with firsthand exposure to the field of biotechnology research and its applications at the research center.

### Objectives of the Visit:

1. To understand the ongoing biotechnological research activities
2. To observe the practical applications of biotechnology.
3. To interact with researchers and professionals in the field.

### Visit Highlights:

**Overview:** This visit commenced with an introduction to the biotechnology research centre, highlighting its mission, research focus, and contributions to the field of biotechnology.

**Research Facilities and Laboratories:** Students were given a guided tour of the research facilities and laboratories, where ongoing experiments and projects were showcased. The tour provided insight into the advanced equipment and techniques employed in biotechnological research.

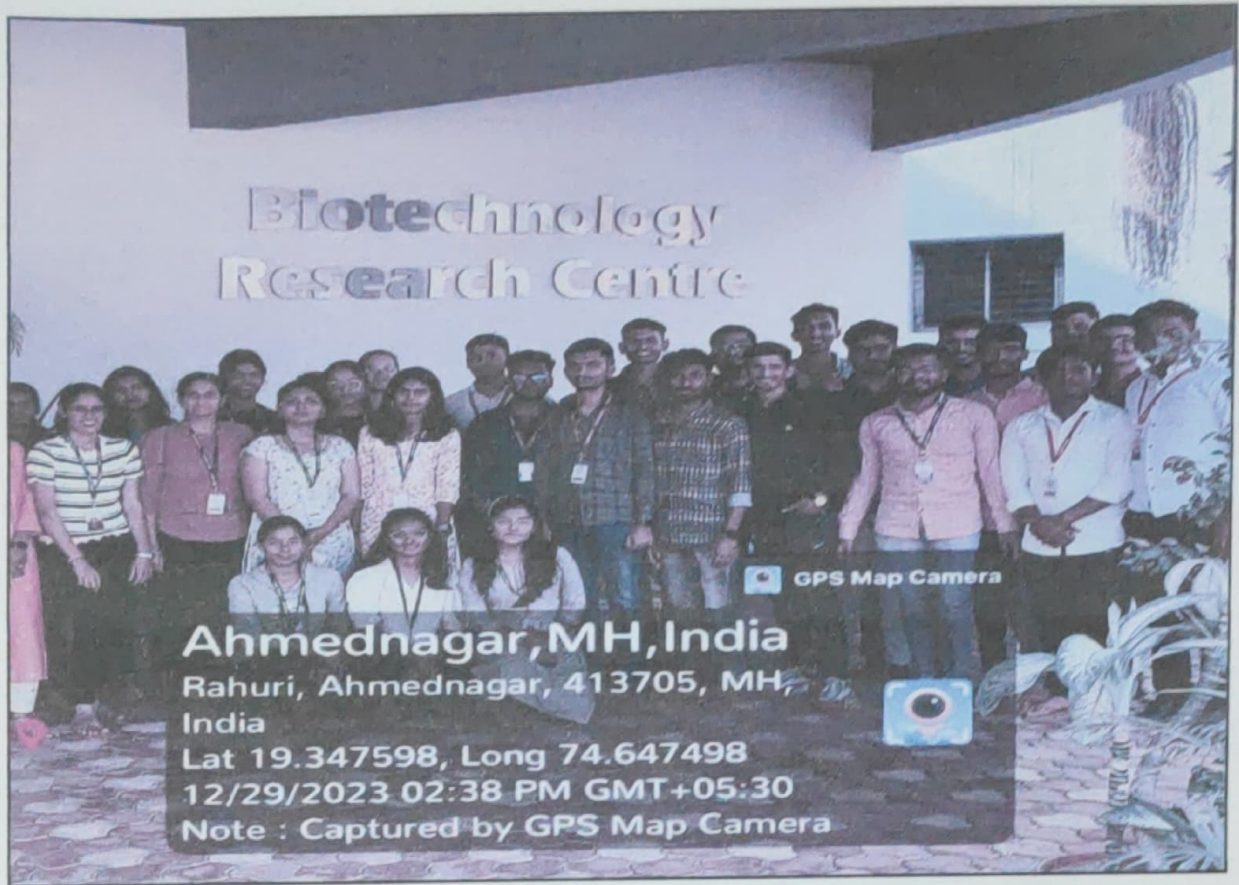

**Practical Applications:** A significant part of the visit focused on the practical applications of biotechnology. Students observed demonstrations and presentations illustrating how biotechnology is utilized to enhance crop yield, develop genetically modified organisms.

**Interaction with researchers:** Field visit provided students with the opportunity to interact with researchers and professionals working at Biotechnology Research Center. This interaction allowed students to gain insights into the challenges, advancements and career opportunities in the field of biotechnology.
